Training Resources Ltd., Inc. Announces Merger

San Diego, CA (June 1, 2018) – Training Resources Ltd., Inc., (“TRL”) today announced that the operations of Maritime Institute, Inc., of San Diego, will be merged into TRL’s San Diego facilities.

According to Dave Abrams, CEO of TRL, “Combining Maritime Institute’s great team with TRL’s world class facilities will allow us to serve the certified US Coast Guard training needs for all professional mariners. Maritime Institute has a stellar reputation for taking care of their students and because of that they were a great fit for our culture, and their courses fill a void in our offerings for lower tonnage ratings.”

H. G. “Rags” Laragione, President of Maritime Institute, Inc., added “We are very proud to be joining forces with TRL. Their facilities and instructors are first class. The combined operations will become one of the largest maritime training programs in the United States, and our teams are very excited to be working together. With TRL’s facilities, Maritime Institute will be able to significantly expand its course selection to serve both professional and recreational mariners.”

Mr. Abrams, who recently acquired 50% of TRL, will be Chief Executive Officer of the combined operations. Mr. Laragione will continue to support the businesses in a consulting capacity.

About Training Resources Limited, Inc.

Training Resources Ltd., Inc. (“TRL”) has been a leader in the Maritime Training industry for over 20 years. TRL’s state of the art training programs incorporate class room training, computer simulation and hands on training experiences for professional mariners around the world. TRL has over 50 approved Coast Guard courses to provide certifications in deck, engineering and safety requirements. About Maritime Institute, Inc.

Maritime Institute, Inc. was founded in 1976 to serve the training needs of both professional and recreational mariners. Owned for the past 21 years by H.G. “Rags” and Kathy Laragione, Maritime Institute holds certification to teach both Coast Guard and International Yacht Training (IYT) courses. The company has its own training facilities in San Diego and Alameda California and offers courses at partner facilities throughout California.
